O - TERRACE

GB

Maintenance and cleaning.
It is always better to remove marks as soon as possible, using water, mild cleaner and a sponge. In most cases, your O-Terrace deck can be cleaned with just high pressure cleaner combined, if necessary, with mild cleaning product. For foodmarks (ketchup, wine, soup, fruit juice, cola, coffee, tea,...) scrub well with a dilution of 1:10 with water. O-Clean cleaner is appropriate for most of oily marks, butter, silicone and glues. For more information, please contact your retailer or visit our website www.twinson.net.

NL

Onderhoud en reinigbaarheid
Het is raadzaam om vlekken van gelijk welke aard steeds zo snel mogelijk te verwijderen met water, een mild reinigingsproduct en een spons. In de meeste gevallen is je O-Terrace terras al proper met enkel een hogedrukreiniger te reinigen. Voor voedselvlekken (ketchup, wijn, soep, fruit juice, cola, koffie, thee,...) gebruik een verdunne bleekwateroplossing, goed schrobben en daarna overvloedig afspoelen met water. O-Clean reinigingsproduct kan gebruikt worden voor de meeste olievlekken, boter, siliconen en lijm. Contacteer je verleider voor meer informatie of surf naar onze website www.twinson.net.

F

Entretien et nettoyage
Il est toujours conseillé d'éliminer les taches de quelque nature que ce soit le plus rapidement possible avec de l'eau, un détergent doux et une éponge. Dans la plupart des cas, votre terrasse peut être nettoyée avec simplement un nettoyeur à haute pression, éventuellement en combinaison avec un détergent doux. Pour les taches d'alimentation (le ketchup, le vin, la soupe, le jus de fruits, le cola, le café, le thé,...) frottez avec une dilution de 1:10 avec de l'eau. O-Clean peut être utilisé pour la plupart des taches huileuses, la beurre, la silicone et la colle. Pour plus amples informations, veuillez contacter votre distributeur ou visitez notre site www.twinson.net.

D

Wartung und Reinigung
Es ist von Vorteil, Flecken so rasch wie möglich zu entfernen. Das kann mit Wasser, einem milden Reinigungsmittel und einem Schwamm geschehen. Ihre O-Terrace Terrasse kann in meisten Fällen nur mit einem Hochdruckreiniger gereinigt werden. Für Nahrungsflecken (Tomatenmark, Wein, Suppe, Fruchtsaft, Cola, Kaffee, Tee,...) eine verdünnte Chlorwasserlösung verwenden, gut schrubben und dann ausgiebig mit Wasser abspülen. O-Clean Reinigungsprodukt ist für die meiste Ollecken, Butter, Silikon und Leim geeignet. Für weitere Informationen, rufen Sie bitte Ihren Vertreter an oder besuchen Sie unsere Website www.twinson.net.

Preparation of installation

Option 1: with P9552

If drainage cannot be guaranteed: split the supports.

Als drainage niet kan worden gegarandeerd: de ligger splitsen
Si l'évacuation ne peut être garantie: partitionner les supports
Ist eine Drainage nicht gewährleistet, bitte die UnterKonstruktion aufteilen

5

Preparation of installation

Option 2: alternative structure

For all applications where P 9552 can't be fully supported, use a solid structure in other material (e.g. wood, metal, ...).
Voor alle toepassingen waar P 9552 niet kan gebrukt worden, dient men een solide structuur in een ander materiaal te gebruiken (vb. hout, metaal, ...).
Pour toutes applications où l'on ne peut supporter le P 9552, utilisez une structure rigide dans un autre matériau (e.g. le bois, le métal, ...).
In alle Anwendungen bei denen P 9552 nicht verwendet werden kann, muss eine solide UnterKonstruktion aus einem anderen Werkstoff (Holz, Metall, ...) verwendet werden.

6

Start with P2761 - P9543

Option 1: with P2761

Option 2: with P9543

7

P9555: general guidelines

Assembly P9555:

P9544/P9554

P9544 STANDARD USE
Stainless steel, quality A2
= 100 = 5.5m²

P9554 MARITIM USE

High quality stainless steel, quality A4
= 100 = 5.5m²

Crosscut joint

Add extra piece of P9552 and use 2 fasteners.

Dilatation P9555

→ Basic rule: 3mm per linear metre
 If a dilatation of at least 3mm/m cannot be guaranteed then you need to subdivide the planks
 into different modules and/or use the P9543 profile.

NL Als er geen uitzetting van tenminste 3mm/m kan gegarandeerd worden, dan moet je de planken in verschillende modules opdelen en/of P 9543 gebruiken

F Si une dilatation d'un minimum de 3mm/m ne peut être garantie, il faudra adapter les dimensions de vos planches et/ou utiliser le profilé P9543

D Wenn eine Ausdehnung von 3 mm/m nicht gewährleistet werden kann, müssen die Bretter in verschiedene Längen aufgeteilt werden und/oder muss P 9543 verwendet werden.

1. Between the planks

2. Between wall and plank

3. Between plank and plinth

Expansion rules: overview
 Option 1: end of terrace with P9556

Option 2: end of terrace with P9543

End of terrace: P2761 – P9556
 Option 1: with P2761 and P9556

Full panel P9555

Option 2: with P9543

Finishing

Option 4: with P9557
